Lagos, Nigeria | 08109522335 | daramola772@gmail.com | linkedin.com/in/femi-daramola-1218591a3 | github.com/DaramolaFemi

PROFESSIONAL SUMMARY

Full-stack engineer and Web3 developer with experience building scalable, user-focused web applications, e-commerce experiences, SaaS products, and technical content. Proficient in React, Next.js, TypeScript, Solidity, and Ethereum, with hands-on experience integrating APIs and payment solutions. Brings a strong technical communication background spanning research, developer-facing content, and product documentation.

CORE SKILLS

Engineering & Web3

JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3/Sass, Tailwind CSS, Node.js (Basics), REST APIs, Fetch/Axios, Git & GitHub, Solidity, Ethereum, Smart Contract Development

Commerce, Content & Tools

Shopify Website Development, E-commerce Development, Payment Integration, Technical Research, Technical Web Content, API & Developer Documentation, Postman, VS Code, Responsive Design, Testing & Debugging

PROFESSIONAL EXPERIENCE

Research Assistant | Veilant

Mar 2024 – Nov 2025

- Conducted structured research to support organizational initiatives and informed content, product, and strategic decision-making.
- Synthesized complex information into clear, actionable findings and maintained well-organized research outputs.

Technical Web Content Specialist (Freelance) | GoKwik

Mar 2023 – Jul 2023

- Created and refined technical web content for digital products, translating product and technical concepts into clear, user-focused communication.
- Worked independently to research topics, maintain accuracy, and deliver content within project timelines.

Web Developer & Technical Writer | Master Frosty

May 2023 – Mar 2025

- Supported the development of an e-commerce website, with a focus on usability, technical content, and online customer experience.
- Contributed technical and web content and supported payment-platform integration.

Web Developer | BDS Sales and Marketing, USA

May 2022 – Nov 2022

- Developed and redesigned websites with an emphasis on modern interfaces, responsiveness, and user experience.
- Implemented payment-platform functionality and improved existing pages to create more distinctive, user-friendly experiences.

Technical Writer | Health Guard

Aug 2022 – Jan 2023

- Produced more than 50 technical write-ups and documentation assets, adapting complex information for clear and practical use.

Technical Writer & Documentation Specialist | Freelance

2020 – Present

- Create API documentation, developer guides, software documentation, technical articles, and knowledge-base content.
- Collaborate with technical stakeholders to improve content accuracy, structure, and accessibility.

SELECTED PROJECTS

Bouldwood — E-commerce Showroom | Personal Project

Sep 2026 – Present

- Building a polished e-commerce showroom experience designed to present products clearly and support online payments.
- Developed with React, TypeScript, Vite, Tailwind CSS, Framer Motion, and Lottie to combine performance with a modern, interactive interface.

Cedius — Business Operations SaaS | Personal Project

Jul 2026 – Present

- Developing a centralized business operations application for managing customers, invoices, expenses, team access, and financial insights.
- Built around a modern SaaS architecture using Next.js and React, with a focus on a streamlined experience for small and medium-sized businesses.

Harmattan 9ja Skies — Interactive Weather App | *Personal Project*

Jun 2026 – Jul 2026

- Built a weather application that intentionally departs from conventional weather interfaces and delivers a more distinctive user experience.
- Implemented an interactive game concept that responds to current weather conditions, blending utility with engagement.

EDUCATION

Obafemi Awolowo University (OAU) | B.Sc. Sociology and Anthropology | 2016 – 2021
